8-Way	420mm	75mm	60mm	Standard Switches 415V, AC 110V, DC
10 - Way	310mm	120mm	68mm	Standard Switches 415V, AC 110V, DC

### Features:

- Yet another product for Cranes & Hoist industry in addition to Kumbhojkar's Cable Carrier Assembly, winner of Plasticon Award 2000.
- An Emergency Stop button as a safety measure. \*
- Mechanical Interlock facilitates only one switch activation while other gets locked.
- Double Speed operations for push buttons.
- Exclusively designed for improved performance.
- No sharp edges to facilitate repeated operations without fatigue to operator.
- Impact resistant engineering plastic material for enclosures.
- No Hazardous shocks due to non conductive enclosures. Standard switches with 1 normally closed (NC) and 1 normally open (NO) for 1 button.
- An elastic & chemically resistant gasket between two enclosure halves ensures dust & waterproof enclosure.
- Ample enclosure space for switch wiring.
- Cable cone to facilitate cables.
- Easy to read button functions.
- Provision of hook to hang metal chain which avoids tension on cable.

*\* The Emergency Stop Button is a safety measure and it is out sourced. We have fitted the same in our pendant. Any sort of accidents due to failure in functioning of the pendant will not be the responsibility of Kumbhojkar Plastic Moulders.*
